EDUCATION

- BMS College of Engineering** 2026
Bachelor of Engineering CGPA/Percentage: 9.89
- Class 12** 2022
Karnataka Secondary Education Examination Board, Karnataka CGPA/Percentage: 95.16
- Class 10** 2020
Karnataka Secondary Education Examination Board, Karnataka CGPA/Percentage: 98.56

EXPERIENCE

- ByteDocker** June 2024 – August 2024
Full Stack Developer Intern Bengaluru
 - Contributed to the development of client projects using the MERN stack, building scalable web applications as part of a team.
 - Worked on two projects, collaborating with senior developers to meet client requirements and deliver user-centric solutions.
- College Fest Website Development** October/2024 – Present
Backend Developer BMS College of Engineering
 - Developed and managed the backend of the merchandise portal using the MERN stack, ensuring seamless functionality and performance.
 - Gained hands-on experience in backend development, database management, google sheet integration and API integration.

PROJECTS

- Nologin - Anonymous File Sharing Platform**
Built and hosted the Nologin platform (www.nologin.in), enabling secure and anonymous file sharing without requiring login credentials.
 - Tools & technologies used: React, Firebase, Firestore.
 - Implemented features such as anonymous sharing, custom link expiry, password protection, and seamless cross-device sharing. Developed the frontend using React and backend using Firebase, ensuring data security.
- Geo-Crisis - Real-time Mapping Tool** Jan 2023
Designed and developed Geo-Crisis, a real-time mapping tool to visualize crisis data for governments and the public.
 - Tools & technologies used: NodeJS, Leaflet, OpenStreetMap, APIs for data aggregation, AI chatbot.
 - Collaborated with teammates to implement location-based alerts, AI chatbot guidance, and emergency service mapping. Aggregated real-time crisis data and visualized it on interactive maps, simplifying decision-making during emergencies.

TECHNICAL SKILLS AND INTERESTS

Technical Skills: React.js, Node.js, JavaScript, Express.js, MongoDB, Firebase, Java, C++, CSS, Python, PostgreSQL, Git and GitHub

Soft Skills: Communication, Teamwork, Problem-solving, Time Management, Adaptability

Field of Interest: DSA, Emerging Technologies in Web Development, Artificial Intelligence and Machine Learning Applications

Hobbies: Drawing, Singing, Coding

POSITIONS OF RESPONSIBILITY

- Financial Head,** Pentagram, Mathematical Society of BMSCE Oct 2024 – Present
Managed the financial aspects of the society, including budgeting and allocation of resources for various events.

ACHIEVEMENTS

- Finalist, Hack AI Hackathon** Advanced to the finals at IIT Bombay TechFest 2023, showcasing AI solutions.
- Finalist, Code for Good Hackathon-24** Conducted by JP Morgan Chase and Co; reached the final round.
- Runner-up, ML Hackathon** Secured second place in ML hackathon organized by IEEE Computer Society.
- LeetCode** Solved over 800 problems on LeetCode and has KNIGHT badge, with highest rating being 1953.
- CodeChef** Attained 4-star status on CodeChef, with highest rating being 1800 and solving over 200 problems.
- CodeForces** Attained Specialist on CodeForces, with a maximum contest rating of 1497 and solving 300+ problems.
